

March News

Happy (almost) Spring TK families!

With Kindergarten quickly approaching, our small group time is very important. The best time for us to do this is during Atrium. The Atrium asks that each child has one family member volunteer over the course of the year. It is required in Kindergarten so this is a great way to get acquainted with the Atrium rules and schedule. Please check out the dates on our atrium sign up and see if there are any that you're available to help with.

The first week of March is always dedicated to Dr. Seuss and "Read Across America". Each day next week has a different theme based on a Seuss classic. Our lesson plans will be focused on each of these themes and we'll base our learning around them, but children are also invited to dress for each theme. You can follow along on our TK calendar.

On Thursday March 26th we have a field trip to Pinnacle gymnastics. We will leave at noon and return at 2:30. There will be no regular TK this day. Ladybugs can attend at regular time. Please make sure your child wears socks for this field trip. A special helper signup will be sent out closer to the date. If you have already attended a field trip please make sure you give others a chance to signup first.

On Thursday, March 12th, we will be having a fun "Green Day"! Children are encouraged to wear as much green as they possibly can. The child with the highest number of green items will be crowned either King or Queen of Green!. Not only is this a lot of fun but it is also a great counting and graphing activity. We will award one Queen and one King of green to the child wearing the most articles of green!

There is no TK the week of March 16th-March 20th for Spring Break. PDO is also not in session this week. If your child is in Ladybugs they will just attend the Ladybugs class all week. But, keep your eyes peeled for all kinds of fun and exciting Spring Break activities, we have a planning committee that's dedicated to making this week extra amazing.

Thanks so much for taking the time to read our newsletter. We are looking forward to this beautiful Spring weather!
